

K-Love radio serves me as a resident in Lexington, KY by providing uplifting, commercial-free, radio. If K-Love were to be replaced by an LPFM broadcaster, I think this would be devastating to all the people who feel the same way I do about this radio station. K-Love provides a service to public interest because of the uplifting and encouraging music it provides to so many people throughout the U.S. Even though the station is in CA, you would never know by the way the whole staff serves everyone who listens. Please DO NOT change this broadcasting network to an LPFM station!!!
